Sock Horse - Sock Aid

Our innovative Sock Aid design helps people to put on socks easily and quickly, and does not have flimsy rope handles. It was designed with a sturdy handle to help people:

- With back, knee or hip problems
- With decreased flexibility
- Who are pregnant
- Who are overweight

The Sock Horse is compatible with most men's and women's socks, including but not limited to crew, tube, ankle and sport socks.

Customer Testimonials

"Works great. This prevents a great deal of pain in my hip and lets me put on my socks on with no problem. I highly recommend this product."

— Glen R. Taylor (Customer)

"My husband has arthritis in his hip and was having problems putting on his socks. I bought him one of these and he no longer asks me to help him. Glad I found this.."

— M. Sasser (Customer)

How does the Sock Horse compare with other aids?

- Sock won't slide off prematurely
- Long, rigid handle
- Easy to use
- Use also as a shoe horn
- Contoured grip
- Economical

NEW Product Features

- **Easiest** and **fastest** sock tool on the market
- **Extra-long handle**, ribbed thumb grips, ergonomic hand contour
- Because only the sock top goes on the grips, the aid **doesn't over stretch socks**
- **Weak hands can use the aid** with ease
- **Comfortable**—skin does not have to touch hard plastic
- Rubber grips are **gentle on socks**
- **Guides cradle your leg** and steady the tool while loading the sock
- **Two tools in one**; bottom guides can be used as long-handled shoehorns
