SoftNail Sandals

Toenails get thicker and more brittle as people age, **especially those with diabetes or chronic health conditions.** Unless softened, trimming hard toenails can be very difficult. Showers or baths can be inadequate and may not soften nails and prevent cracking or splitting during pedicures.

Designed for people on the go, you no longer need to sit in one place with feet in a tub of water to soften toenails. Simply slip on the adjustable SoftNail Sandals and go!

Customer Testimonials

“Over the years my toenails have grown very hard and they are difficult to clip—this has made it a lot nicer.”

— Brittney Fairbourn (Customer)

“I put these on a half hour before my care provider comes to do my pedicure, and it makes her job so much easier.”

— D. Cragun (Customer)
