Walker Coasters

Our innovative Walker Coaster design replaces tennis balls, wheels, and rubber tips on walker legs. Our coasters glide smoothly over doorways, sidewalks, and carpets. **Walker Coasters fit standard 1" tubing.**

Customer Testimonials

"After a hip replacement, I had to use a walker. These coasters attached easily, and are so much better than tennis balls or skis."

— Sue (Omaha, NE)

"Best I ever found! This product lasts a long time, works great, and is better than tennis balls or rubber caps. Once you try, you'll never use anything else."

— Customer (Gwinnett County, GA)

"I've been using 'sliders' on my walker for some time, and these 'coasters' are much better. The sliders always turned on me. The coasters stay in place, and because they are round, they make turning my walker much easier. Great product!"

— Online Customer
